Reminiscence of Alexandria, Va., 1784. [From the Dailey Advertiser, London, Friday December 17, 1784, Extract of a letter from Cork, Nov. 29.]

"The Triton, Capt. Young, which arrived at Cove, the 26th inst., from Alexandria, in Virginia, bound to Liverpool, made her passage in little more than a month. Accounts by her meution, that although the crops of tobacco, wheat and India corn had been more abundant in America than was ever known before, yet the prices of the two former articles kept up to an enormous height, owing to the great number of purchasers and speculators from Europe, and to these articles being the principle means of remittance on account of the want of specie, and no European bills of exchange to be had.

"From the great increase of Alexandria, and the vast influx of people into it, house rent and labor had become intolerably dear. Within the last two years 2,000 inhabitants had been added io its population, and an addition of upwards of 30 large stores and wholesale warehouses had been opened. Shipbuilding is carried on with great spirit, notwithstanding the usual price of carpen-

ter's wages is two dollars a day, and house carpenters, masons, and joiners proportionably high.
"European dry goods, well laid in sold at an advance from 65 to 75 per cent, on the invoice, and so far from that quarter of America rivalling Ireland in the provision trade, we are credibly informed by a passenger in the ship, that Irish beef, pork, butter, and candles are now wanted there, and generally sell well during the winter and early part of the spring."

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence, to cure the disease the cause must be removed, and in no other way can a cure ever be effected. WARoure the disease the cause must be removed, and in no other way can a cure ever be effected. WARNER'S SAFE KIDNEY AND LIVER CURE is established on just this principle. It realizes that 95 PER CENT.

of all diseases arise from deranged kidneys and liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act

ficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drive disease and pain from the system. For the innumerable troubles caused by un-healty Kidneys, Liver and Urinary Organs; for the distressing Disorders of Women; for Malaria. and for physical derangements generally, this great remedy has no equal.
